EXPERIENCE

Coder Foundry (remote) — Full Stack Web Developer

March 2023 - June 2023

.NET Core bootcamp oriented towards building real-world applications

- Built three full stack apps with ASP.NET Core MVC using Bootstrap, C#, JavaScript and HTML backed with Postgres databases
- Implemented version control (CI/CD) with GitHub
- Built six different front-end apps emphasizing JavaScript
- Published all applications as live websites viewable on portfolio

theCoderSchool (Westerville, OH) — General Manager

August 2022 - March 2023

An after-school coding facility for kids 7 - 17 where children start with Scratch and evolve to Python, Java, C#, Unity, Blender, and more

- Increased total student count (and bottom line) by roughly 60%
- Increased costs for programs as well as retention rate of clients
- Received bonus and promotion shortly after hired due to performance
- Opened the school an extra day of the week to accommodate the increase in students
- Hired/fired employees based on merit and performance
- Implemented a texting-from-computer software that has generated a higher customer conversion rate

Accurate Transportation (Gahanna, OH) — Freight Broker

December 2019 - July 2021

Transportation company with dozens of trucks and ~150 trailers. Brokerage division solves customers' transportation needs across the US

- Entered the truck brokerage industry lacking relevant expertise
- Became competent enough in one month to manage a large customer
- Far surpassed target margin of 12% every month
- Became responsible for the majority of the brokerage's profitability
- Imagined and implemented successful creative solutions to save customers money while increasing our own bottom line
- Left role on excellent terms to pursue a career in coding

SKILLS

Responsive Software Development, ASP.NET, .NET Core, C#, Javascript, CSS3, HTML5, Bootstrap, Postgres, SQL, LINQ, Razor, GitHub, McLeod, public speaking, copywriting
